HOW TO PLAY: NUMBER PATH

Jump by the exact number shown to reach the finish.

4 puzzles · one per page · every solution printed

RULES

1. Start at the top-left cell and reach the cell marked F.
2. Each cell shows a number — you must jump exactly that many cells.
3. You can jump up, down, left, or right (not diagonally).
4. Trace the path from the start to F — there is exactly one route.

2	3	2	2
1	3	3	3
3	2	1	3
1	3	1	F

One cell is already worked out - the rest are yours.

PRO TIP

Work from both ends — trace forward from the start and backward from F. Where the two paths meet, you have found the route.

COMMON MISTAKES

- Moving diagonally — only horizontal and vertical moves are allowed.
- Revisiting a cell — the path must not cross itself.
